

ISO 27001 & WLA-SCS

Magnum Corporation Sdn. Bhd. ("MAGNUM") was first awarded with the World Lottery Association-Security Control Standard (WLA-SCS) Certification on 4 November 2013. It is the first lottery company in Asia to be awarded with the WLA-SCS certification for its Lottery operations in Malaysia.

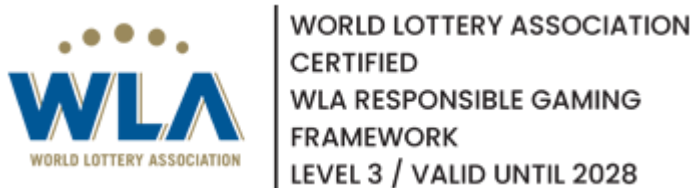

The WLA-SCS which also includes compliance with the ISO/IEC 27001 Standard for Information Security Management Systems (ISMS), comprises 111 security requirements, including 90 lottery-specific security controls for lottery operators and vendors worldwide. The combined security requirements in both standards provide an effective security framework to identify, manage, and reduce security risks in the lottery operations and processes. Both the WLA-SCS and ISO/IEC 27001 standards are renewed on a three-year cycle basis.

In September 2015, Magnum successfully achieved the certification for ISO/IEC 27001:2013, an updated version of the ISO/IEC 27001:2005 standard. The much-improved 2013 version now has 114 security controls representing current best security practices. In September 2017, Magnum also successfully achieved the updated version of WLA-SCS certification, WLA-SCS:2016 which enhanced the previous version of the standard, WLA-SCS:2012 with additional 26 new sector-specific control requirements.

Compliance with the WLA-SCS shows Magnum's commitment to security and integrity in operating its lottery business. It enables Magnum to ensure that effective security measures are in place within all the various operating units in the business. In year 2019, Magnum has again reaffirmed its continual commitment to the security and integrity of its lottery operations with the achievement in both standards for the third certification cycle.

First in Malaysia to certified Level 3's Responsible Gaming

Magnum Corporation Sdn. Bhd. ("MAGNUM") has created another great milestone by becoming the first Malaysian number forecast operator (NFO) corporation to achieve Level 3 Responsible Gaming certification from the World Lottery Association (WLA) in 2021. As part of WLA members, Magnum takes Responsible Gaming seriously to ensure global best practices are being executed and strictly adhered to throughout our Organisation for our customers, partners, stakeholders, communities and employees.

Responsible gaming (RG) is the lottery sector's most critical element of Corporate Social Responsibility. As part of global authorities, WLA orchestrates lottery industry to uphold the highest ethical principles in more than 80 countries, worldwide. In 2006, the WLA adopted the Responsible Gaming Principles and a Responsible Gaming Framework aimed at protecting lottery players around the world.

Magnum provides annual training to all employees and sales operators to ensure the Responsible Gaming practices are well-integrated through business operations and

also provide all our players with the most accurate information of harms of excessive playing habits in the community.

In conjunction with our RG week which will be held in May every year, we will distribute and display various RG-related materials in all our Magnum outlets throughout nationwide. We wish to showcase the highest commitment in encouraging our customers to Play Responsibly.

Magnum is committed in providing a safe and entertaining environment that encourages a harmonious lifestyle to all our players and stakeholders.
